The Challenge: Navigation

The Solution: Connections

Through our coordinated network, we better serve clients, providers, and improve service delivery outcomes across the communities we serve.

RIGHT VETERAN

Our initial focus has been from the start to connect a veteran, family member, or transitioning service member to a service that aligns with their needs.

RIGHT PARTNER

We have more than 3,000 providers in our State-wide network focused on serving their clients through the referral platform and knowledge exchange network.

RIGHT SERVICE

Our outcomes continue to show greater impact to clients – more accurate and appropriate referrals are being made to partners across 24 different service types.

LEAST TIME

Our outcomes are continuing to show efficiency at scale – more timely referrals are being made across the state.
