Highlights of the N.C. Public School Budget

Funding public education in North Carolina is a complex and integrated process. This booklet presents charts and tables which describe how state and federal funds are distributed to North Carolina's Public Schools. It also reviews the changes in average daily membership (ADM), school personnel, and the effect of charter schools.

The State funds schools with three basic types of allotments.

Position Allotments:

The State allots positions to a local school district for a specific purpose. The local school system pays whatever is required to hire certified teachers and other educators, based on the State Salary Schedule, without being restricted to a specific dollar amount. Each local school district will have a different average salary based on the certified personnel's experience and education in that district. Examples of position allotments are:

- Teachers - School Building Administration.

- Instructional Support Personnel

Dollar Allotments:

Local school districts can hire employees or purchase goods for a specific purpose, but the local school district must operate within the allotted dollar amount. Examples of dollar allotments are:

- Teacher Assistants - Textbooks

- Central Office Administration - Classroom Materials/Supplies/Equip.

Categorical Allotments:

Local school systems may use this funding to purchase all services necessary to address the needs of a specific population or service. The local school district must operate within the allotted funds. These funds may be used to hire personnel such as teachers, teacher assistants, and instructional support personnel or to provide a service such as transportation, staff development, or to purchase supplies and materials. Examples of categorical funding are:

- Transportation

- Driver Education

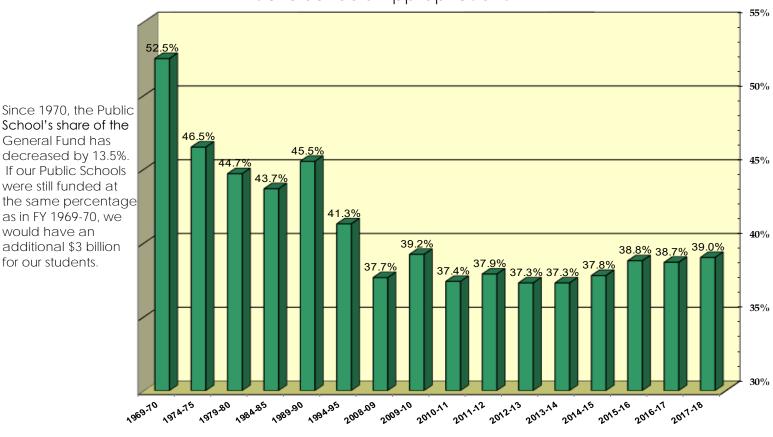

Local school systems have flexibility to move funds between categories to meet their educational needs

Allotted Average Daily Membership 1998-2018

Note: Decrease in 2009-10 Average Daily Membership is due to the change in the Kindergarten age cut off. Starting in 2009-10, students may not be enrolled in a NC public school unless they are 5 years of age on or before August 31st, previously October 16th. This represented a decrease in Kindergarten of 13,490.

Average Daily Membership for each school month is based on the sum of the days in membership for all students in individual LEAs, divided by the number of days in the school month. To be included in ADM, a student must have a class schedule that is at least 1/2 of the school's instructional day.

Allotted Average Daily Membership (ADM) is based on the higher of:

- (a) Actual ADM from the prior year, or
- (b) Projected ADM of the current year.

Types of State Funding FY 2017-18

See page 1 of this document for a description of each type of funding

65.46% of the State funds are allocated as guaranteed certified positions.

Therefore, a LEA receives a position (or month of employment) and the state pays for the salary and benefits for the position, regardless of where the individual falls on a salary schedule.

So... a state paid teacher with 5 yrs experience has the same budget impact to a LEA as a state paid teacher with 25 yrs experience, they both = 1 position.

Difficulties in Comparing Dollars per ADM

- Huge variance in the size of LEAs. ADM ranges from systems with an ADM of 607 to an ADM of 162,698.
- Certain fixed costs in LEAs such central office operations
- Younger Teachers versus Older Teachers (experience levels)
- Fixed Salary Schedules

Teacher Comparison

- Ex: Teacher in Wake with 5 years experience, versus Hyde with 20 years experience.
 - Cost per ADM for Hyde is greater.
 - Both schools have a teacher.

North Carolina provides supplemental funding to systems whose ability to generate local revenue per student is below the state average. Some of the factors used to determine eligibility are county adjusted property tax base, square miles in the county, and per capita income. There are 67 "Low Wealth" counties (77 LEAs) in 2017-18.

Counties containing a base of the Armed Forces of the United States that have an average daily membership of more than 23,000 students shall not receive less supplemental low-wealth funding than the LEA received in the 2012-13 fiscal year.

Low Wealth Supplemental Funding Total State Funding

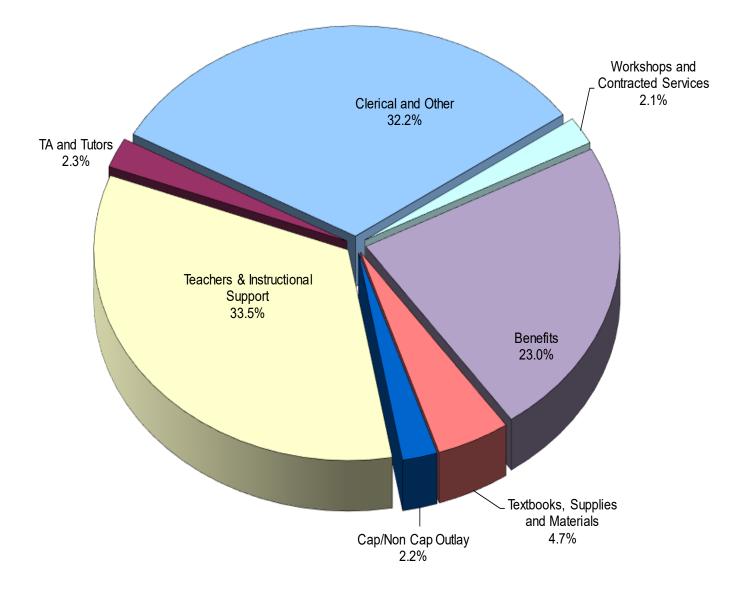

Note: The low dollars per ADM for Swain County is a result of the county's low "effort". Swain County's effective tax rate was below the State average effective tax rate and Swain County's local appropriation per student was 24.6% of what the county could contribute based on the county's wealth and an average state effort, therefore; Swain County was eligible for 24.6% of their appropriation (based on funds available).

How Low Wealth Funds Were Expended FY 2016-17

Small County Supplemental Funding FY 2017-18 Counties

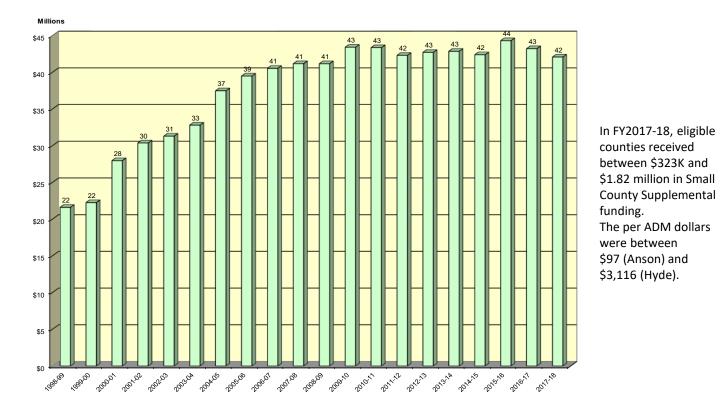

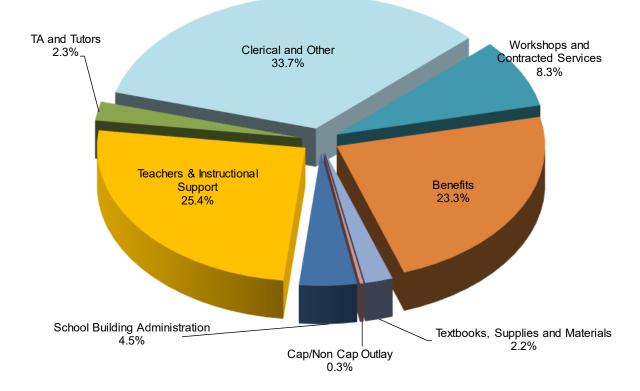

North Carolina provides supplemental funding to those county school district with average daily membership (ADM) less than 3,200. City School Districts are not eligible for this funding. If a school district becomes ineligible due to an ADM greater than 3,200, the funding will be phased out over 5 years.

In 2017-18, 26 county school districts were eligible for funding. In addition, Anson county were in the fourth year of phase out and received 20% of the 2013-14 allotment.

The E-Rate Program:

Governed by the FCC & Administered by the Universal Service Administrative Company the program

provides 20%-90% discounts to schools & libraries for Telecommunications (now Data Transmission/Internet and Voice* broken out), Internal Connections, Managed Broadband, and Basic Maintenance of Internal Connections. With major program reforms outlined in the Modernization Order, beginning FY 2015 there is money available to fund Category 2 requests (IC, MIBS and BMIC) for all applicants.

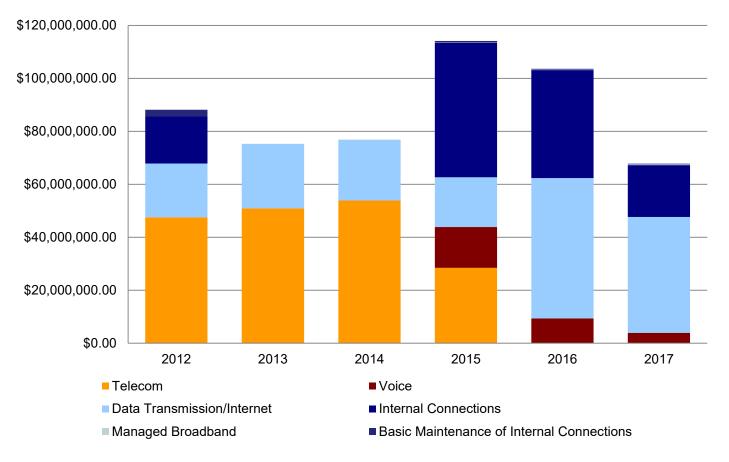

*Voice service is phased out by FY 2019.

State Funding

Historically, the state of North Carolina has provided funding for salaries and operations to the local school systems and the local units have been responsible for providing facilities. The state had a School Facilities Appropriation in 1949 and has passed state school bonds in 1949, 1953, 1963, 1973, and 1996. Currently, North Carolina provides school construction aid to LEAs through the following programs:

Public School Building Capital Fund: Comprised of two portions, the ADM portion and the Lottery portion

1. (ADM Fund) 1987-present - Uses part of the corporate income tax revenues to provide counties with an allotment based on average daily membership. LEAs may let their allotments accrue until they are ready to use them for a specific project, at which time they must match (1:3) the amount from the state. The fund is currently about \$90 Million per year. The fund was frozen by the Legislature for 2002-03 because of state budget shortfalls. More than \$1 Billion has been allotted since 1987; the current fund balance to be allotted is over \$60 million dollars.

2000-01 2001-02 2002-03 2003-04 2004-05 2005-06 2006-07 2007-08 2008-09 2009-10 2010-11 2011-12 2012-13 2013-14 2014-15 2015-16 2016-17

Capital Outlay for School Facilities Cont.

2. The Education Lottery. Lottery sales began in March of 2006. The General Assembly allocated \$140 million of anticipated proceeds for school construction for the 2008/2009 fiscal year to be distributed four times per year. Funds are divided among the LEA's based on (a) ADM as a percentage of state ADM, and (b) property tax rate as a percent of average property tax rate, statewide. Funding for school construction by lottery revenues differs from the PSBCF in two main areas: local matching funds are not required, and lottery funding cannot be used for "technology."

One-half of lottery sales are returned to the public as prizes; 15% is used for administrative expenses, and 35% is divided among the educational programs. Of the educational programs share, 40% is directed for school construction through the PSBCF.

Local Option Sales Tax

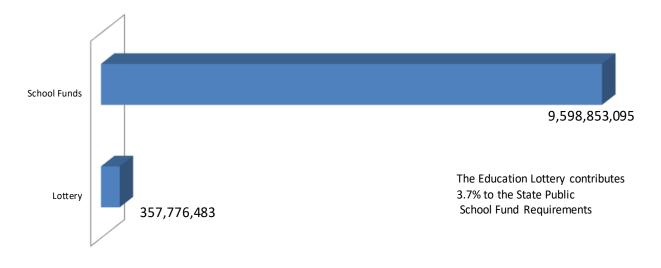

In addition to direct state aid, the state earmarks sales tax revenues for facilities improvements. State law allows counties to levy two one-half cent additions to the state sales tax (1983, 1986), 30 percent and 60 percent respectively goes to schools (all 100 counties levy the tax). The revenues are distributed to counties on a per capita basis and may be used for public school capital outlay or to retire indebtedness incurred by the county for these purposes. In many cases, this has allowed counties to fund local bond issues without raising property taxes. Recent legislation allows counties to levy either an additional one-quarter cent sales tax, <u>or</u> a Land Transfer Tax. There is no state capital funding for charter school facilities.

Federal Funding

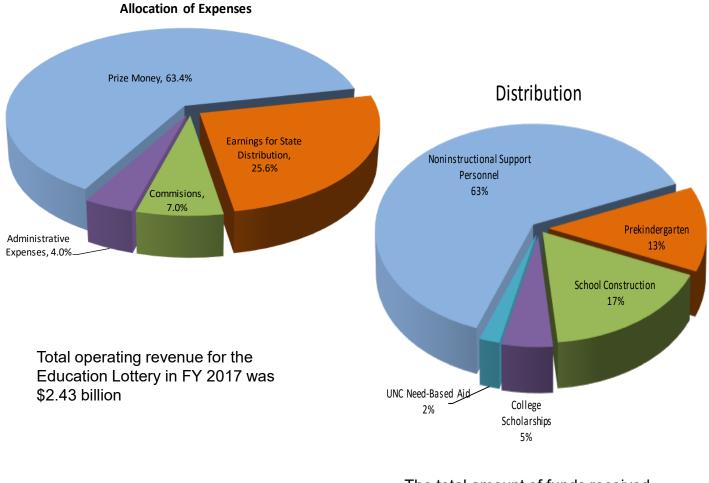

There is no recurring federal funding for public school facilities. Federal funds have included FEMA emergency relief (hurricane) funds. A federal program that has provided school renovation funds is:

Charter Schools

1997-2018

The General Assembly passed legislation in 1996 which created Charter Schools in North Carolina. A Charter School is a public school operated as a semi-autonomous school of choice, operating under a charter with the State Board of Education. The final approval on all charters is granted by the State Board of Education. Charter Schools are designed to give significant autonomy to individual schools and in turn to hold these schools accountable for results.

For 2017-18, North Carolina has 173 operating Charter Schools. Senate Bill 8 (2011) removed the cap of 100 Charter Schools. Charter Schools receive State funding based on the average per pupil allocation of the local education agency in which the school is located

Flexibility of Charter Schools

Charter schools are provided both financial and educational flexibility

Financial

- Funds allotted in one dollar allotment.
- Not eligible for the capital funds from State or county revenues.
- Not required to:
 - ⇒ pay personnel using the state salary schedules or salary ranges,
 - ⇒ participate in the State Employees Retirement System or State Major Medical Plan,
 - ⇒ purchase on state contract or participate in e-procurement.

Educational

- Not held to:
 - \Rightarrow Class size maximums in K 3.
 - ⇒ Calendar laws, except the 1,025 instructional hours or 185 days.
 - ⇒ Licensing standards of teachers (charters are required to have 50% of the teachers licensed.)

Charter School Expenditures

FY 2016-17

State funds are allotted based on the number of students in ADM at the Charter School. State funds may be used for any purpose other than purchasing a building.

Most federal funds are targeted towards a specific population such as Low Income Children or Handicapped Children.

Local funds are given to Charter Schools based on the local current expense appropriation in the county in which the student resides. Local funds may be used for any purpose.
